

COMPANY PROFILE

Established in 1983, with a vision of manufacturing professional broadcast audio and video equipment, today Comcon is an established market leader with its operations spread across various spectrums and its clientele spanning all across the country and abroad. Beginning in 1996, the company stepped into distribution – exclusively for some of the very well world renown brands.

As a manufacturer, Comcon equipments are unique to be build around specific customer requirement. The hundreds of models available today are a result of multitude of customer driven design improvements, and hence one of the best suited for the broadcast professional. Quality at an affordable price supported by indomitable Comcon service and support, are the benchmarks of our manufacturing activities.

As a distributor, Comcon has set up strategic alliances with international brands of the likes of Audio Precision, USA for audio analysers, Sonifex, UK for studio audio equipments, Nautel, Canada for radio transmitters, Switchcraft, USA and Canare, Japan for cables and connectors, Cooltouch Monitors, USA for studio LCD monitors etc. Every alliance has been significant in respect of aligning Comcon with the very best of technological leaders, and hence, adding value for its customers.

Comcon is now a proud family of about 35 employees .

With its manufacturing centre as well as head quarters at Okhla, New Delhi, Comcon boasts of an ever expanding network of dealers. Comcon works closely with other major players and consultants to facilitate better and complete solutions. Comcon is financially well secured, and has sufficient capital to handle simultaneous large projects.

One of the first to acquire ISO 9000/2000 certificate, Comcon leverages time perfected procedures and dedicated staff. With over 35 experienced professionals working at the head office, service to the customer is the foremost word. The service centre at Comcon is well equipped with the latest test equipments. Comcon's staff is regularly trained by its principals to provide efficient service and warranty support to its customers.

Comcon's services to the Broadcast industry are spread over the following activites:

1. Marketing and sales of the broadcast products.
2. System design & consultancy
3. After Sale Service & calibration.
4. Installation and commissioning of equipment.
5. Manufacturing of special system Integration products.
